

The Benmore Gardens HOT SPOT

IN TOUCH WITH YOU

Luxury and necessities...you need Internet for both.

At Benmore Gardens we know that you want to be in touch...with the office...with world events...with friends and family...with the latest trends...even when you're visiting your favourite Centre.

That's why we've made sure that Benmore Gardens is Wi-Fi friendly throughout. Now you can stay in touch, with our compliments.

EASY STEPS TO STAY IN TOUCH

1. In order for Benmore Gardens' Wi-Fi to function, your laptop or handheld device should either have built-in support for Wi-Fi or be equipped with a Wi-Fi network card.
2. If you use new Windows, Mac or Linux software, your laptop will detect the Wi-Fi Network and a message will pop up on your screen. Click on the message. If you don't get a pop-up message, use the software provided with your Wi-Fi network card.
3. Select "Benmore Gardens Free Wireless" from your wireless connect system.
4. Your Benmore Free screen will open up. Log on using your login word - "Free".
5. You can now access the Internet.
6. If you use the Benmore Gardens Free Wireless for longer than an hour, please report to Centre Management. Here you'll receive a code that will enable you to use the network for longer.
7. Should you experience any problems, feel free to ask for assistance at Centre Management.

SUGGESTED USE

Benmore's Free Wi-Fi network works best and fastest for average e-mailing and downloading.

We do not suggest that you try to download outsized files, such as

movies, via this service.

AVAILABILTY IS SUBJECT TO USAGE IN THE CENTRE AT ANY GIVEN TIME.
